

Factsheet
**Value-driven
business process
management &
digital transformation**

From Strategy to Measurable Results

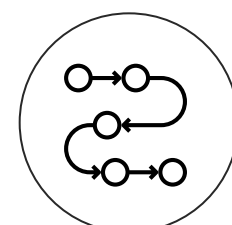

Scheer Americas partners organizations across Financial Services, Healthcare, Manufacturing, Technology, and Consumer Goods achieve measurable process performance and digital transformation by establishing and applying business process management capabilities. Through consulting and education, we help organizations build the BPM discipline to deliver rapid improvements, prepare for smart automation, and ensure long-term governance.

Our Core Offerings

Rapid Process Improvement & Transformation:

Accelerate measurable results by identifying, prioritizing, and optimizing key business processes – delivered through short, high-impact projects.

Business Process Management Capabilities:

Establish sustainable BPM-Discipline by developing a Center of Excellence (CoE), process governance, and supporting infrastructure such as modeling environments, repositories, and process mining capabilities.

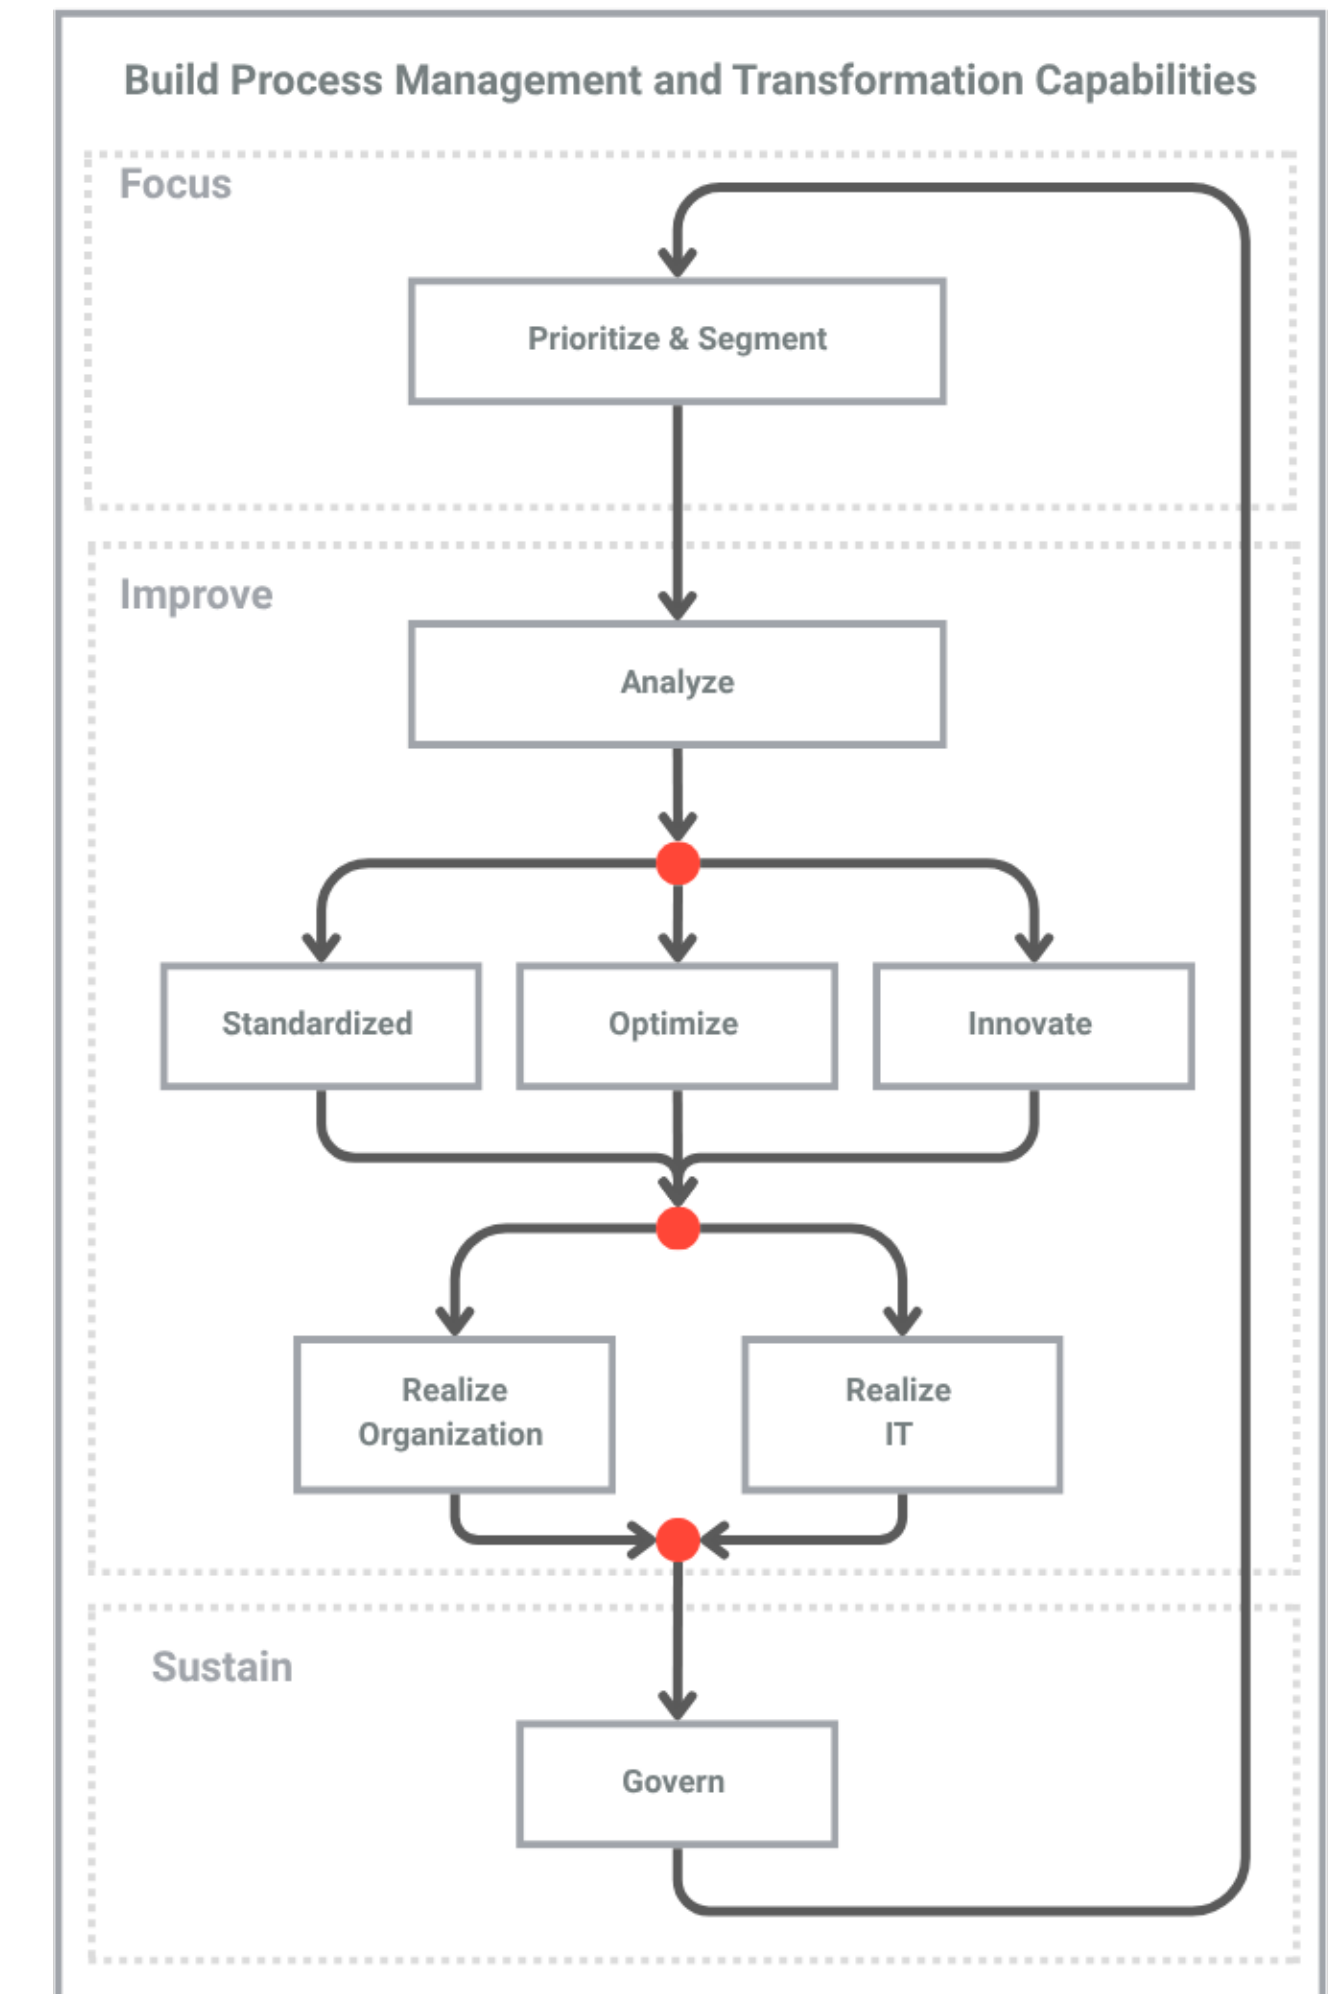

Integrated Enterprise Architecture Management

Align business goals with IT architecture to enable scalable and integrated transformation.

Our Proven Approach to Process-led Transformation:

At Scheer Americas, we guide organizations through a structured journey to deliver measurable results and lasting process discipline.

Customer Success Stories

80%

reduction in administrative efforts

For a **national insurance provider**, we achieved an 80% reduction in administrative efforts and a 49% reduction in overall process costs by leveraging modeling tools and establishing long-term BPM infrastructure.

About Scheer Americas

Scheer Americas is a consulting company that helps organizations achieve rapid, measurable business outcomes while building the business process management (BPM) capabilities needed for long-term success. We bring deep expertise in BPM to deliver results through short, high-impact improvement projects while enabling organizations to build lasting process management discipline.

This includes aligning business strategy with targeted initiatives, establishing process and data governance, and implementing supporting infrastructure such as process modeling, repositories, process mining, and enterprise architecture. Our solutions are provided through expert consulting services and tailored education programs for executives and practitioners. Scheer IDS Americas is part of the global Scheer Group, which has been delivering business process solutions for over 40 years.
