Scheer IDS

From Strategy to Measurable Results

Organizations across Financial Services, Healthcare, Manufacturing, Technology, and Consumer Goods rely on Scheer Americas to achieve measurable process performance and accelerate digital transformation. Our approach is grounded in decades of proven methods and recognized thought leadership in value-driven business process management (BPM). Through our transformation and enablement offerings, we help organizations build a BPM-Discipline® that drives rapid improvement, smart automation, and long-term process governance.

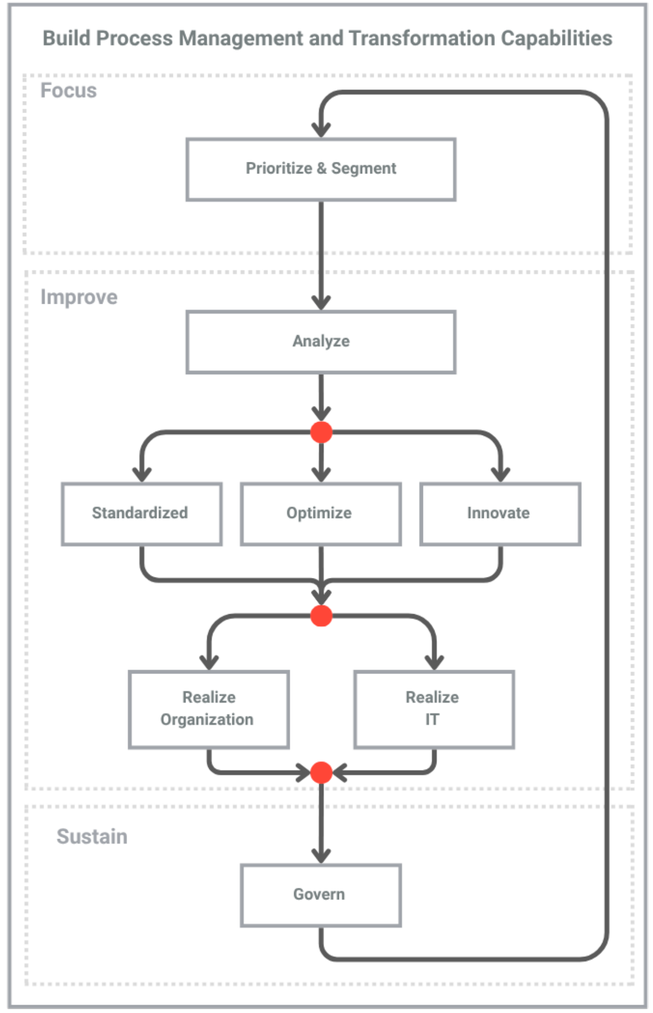

Our Transformation and Enablement Offerings

Rapid Process Improvement & Transformation:
Accelerate measurable results through short, high-impact projects that identify, prioritize, and optimize key business processes. Our proven Rapid Process Improvement (RPI) approach delivers quick wins while establishing the foundation for long-term transformation through structured work packages and continuous improvement.

Business Process Management Capabilities:
Establish a sustainable BPM-Discipline® that turns strategy into execution. We help organizations build governance, modeling, and analytics capabilities supported by Centers of Excellence (CoE), unified process architectures, and process mining environments.

Integrated Enterprise Architecture Management:
Align business objectives with IT architecture to create a scalable foundation for value-driven transformation. We integrate processes and data architectures, governance frameworks, and analytics to ensure alignment between business and IT.

Our Proven Approach to Process-led Transformation:
We apply a structured, method-driven approach that connects strategy, processes, people, and technology.

Scheer IDS

Customer Success Stories

We've partnered with hundreds of organizations worldwide, including in the U.S., Canada, Latin America, Europe, and Asia, to achieve process performance, accelerate digital transformation, and deliver measurable business outcomes. Our clients range from mid-sized enterprises to Fortune 500 companies.

80%

reduction in administrative efforts

For a **national insurance provider**, we achieved an 80% reduction in administrative efforts and a 49% reduction in overall process costs by leveraging modeling tools and establishing long-term BPM infrastructure.

For a **global technology company**, we saved $8 million in under 8 months by establishing a BPM-Discipline® with process governance, analytics, and a Center of Excellence (CoE).

$8 million

saved in under 8 months

2 months

to build sustainable BPM capabilities

For a **mid-market biologics company**, we built sustainable BPM capabilities in just 2 months including governance, modeling, infrastructure, and a BPM playbook to drive innovation and ensure compliance.

Why Scheer Americas

- **Proven results:** We deliver what we promise, with fast, measurable outcomes.
- **Accelerated Impact:** Short, high-impact projects that create early wins and build momentum for long-term transformation.
- **Deep Capability Enablement:** We help organizations unlock the full value of leading process and EA platforms while building lasting BPM capabilities through modeling, mining, governance, and Centers of Excellence (CoE).
- **Sustainable Value:** We help organizations embed the structures, roles, governance required to manage processes effectively, so they can continue to perform and improve over time.
- **Recognized Thought Leadership:** With 11 published books, numerous publications, and university-level teaching, we are the recognized experts in value-driven BPM.

About Scheer Americas

Scheer Americas is a consulting company that helps organizations achieve rapid, measurable business outcomes while building the business process management (BPM) capabilities needed for long-term success. We bring deep expertise in BPM to deliver results through short, high-impact improvement projects while enabling organizations to build lasting process management discipline.

This includes aligning business strategy with targeted initiatives, establishing process and data governance, and implementing supporting infrastructure such as process modeling, repositories, process mining, and enterprise architecture. Our solutions are provided through expert consulting services and tailored education programs for executives and practitioners. Scheer IDS Americas is part of the global Scheer Group, which has been delivering business process solutions for over 40 years.
